

# E3960 Cash Cassette

## High Capacity Cash Cassette - A Global Solution

The E3960 Flip Lid Cash Cassette delivers uncompromising performance and quality focused on low cost of ownership, ease of use and speed through the checkout. It additionally combines a high capacity insert tray with extensive media storage under the insert. The cassette can accommodate 8 coins & 5 notes.

### Mounting

The E3960 Cash Cassette is connected to a baseplate (including legacy baseplates for easy adoption) that is firmly secured to the checkout counter top. Five point mounting system limits connector damage prolonging the cassette's drawer life.

### Currency Compatibility

The E3960 Cash Cassette offers high capacity note and coin storage and accepts currencies worldwide including Euro, Sterling and many others.

### Durability

The robust ABS cassette is fitted with a solid moulded insert to resist even the toughest of retail environments. The E3960 plastic will not crack under usage permitting fewer replacements in circulation which saves on capital expenditures.

### Speed and Efficiency

The E3960 Cash Cassette is routinely tested to ensure the lid opens consistently beyond 80°, providing full access to the drawer insert and allowing the cashier to service customers faster.

### Security

The E3960 Cash Cassette provides a status switch back to the PoS application and is fitted with a function lock.

### Reliability

This Cash Cassette is built using high quality plastics and features a release mechanism that has been tested beyond 1M operation cycles to ensure that it performs flawlessly for the life of the POS system.
