

CASH MANAGEMENT

# SMARTtill Solution®

## 460 ST2 Flip Lid (102) SMARTtill Solution®

### Achieve Simplified Cash Handling

#### Cash Management Solution

The **SMARTtill Solution®** is a new revolution in cash management, enabling retailers to reduce cash losses, reduce the cost of cash handling, and improve in-store productivity. The **SMARTtill Solution®** is an innovative cash management system suitable wherever cash is transacted.

The **SMARTtill Intelligent Cash Drawer** captures, in real-time, all cash activity at its location and reconciles to sales made. This information is collected without affecting transaction time or interrupting the retail transaction. The **SMARTtill Solution®** can be integrated with your PoS hardware/ PoS application.

The data from the **SMARTtill Units** can be populated into any suitable database and used to support intelligent cash management to enable real-time cash visibility at the PoS. This can be via new or existing back office systems. Examples of the type of information for each **SMARTtill Unit**, includes; current cash float value; change levels compared to an optimum level; change top up requirements; value of change added; various alerts for cash lifts; cash errors; and discrepancy data by transaction, shift, cashier, time and date.

#### Operations

- Eradicate manual cash till counts and reduce cash loss investigation time
- Redeploy labour for an improved shopping experience

#### Loss Prevention

- Full cash transaction audit trail
- Ability to integrate CCTV to pinpoint discrepancies
- Reduce cash losses by up to 90%

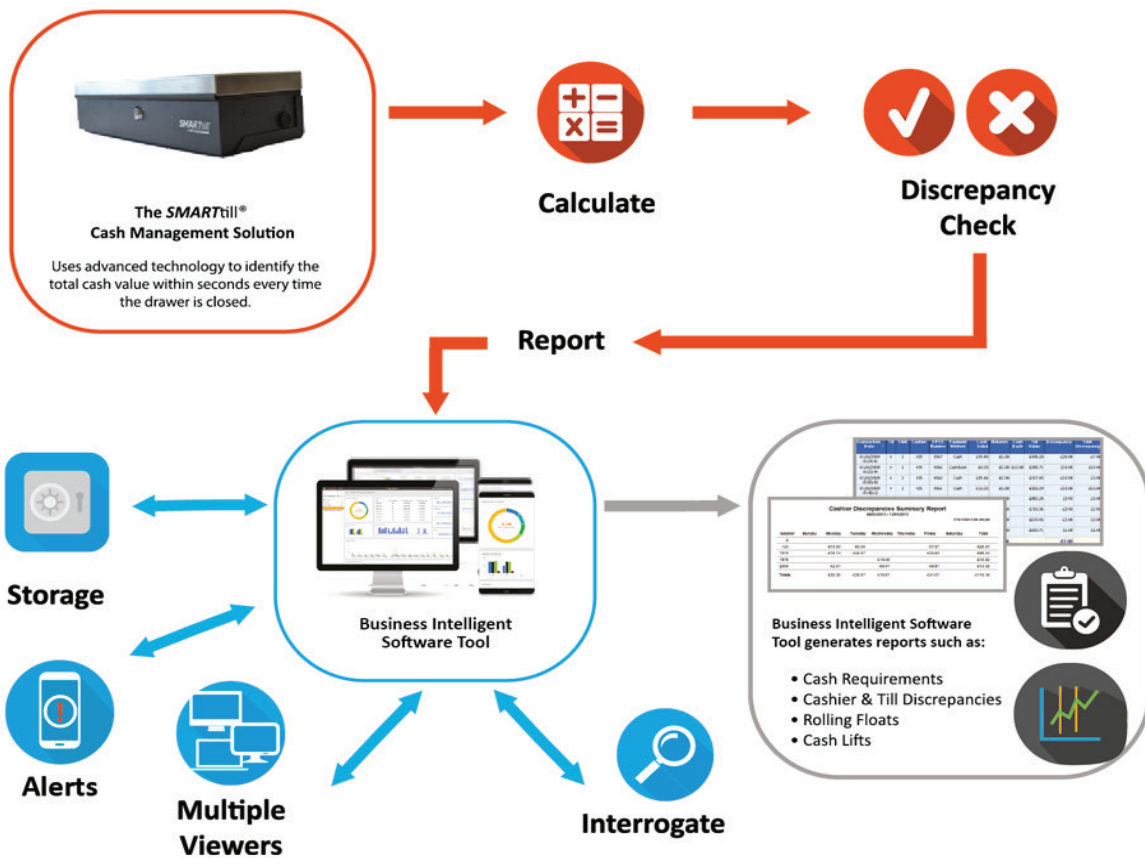

#### Data Analytics

- Security alerts on cash transaction errors, lifts, top ups, and CIT pick ups
- Predictive analytics; cashier, lane and store performance data

#### Treasury

- Reduce cash in transit (CIT) fees
- Reinvest your 'dead' cash
