

External Self-Skimming Flip Lid Cash Drawer

High Security with Unique Self-Skimming Technology

Custom + Bespoke

apg®'s Custom & Bespoke range delivers a cash drawer tailored to fit the exact needs of leading retailers worldwide. For over 40 years we have developed solutions to every type of cash handling problem encountered at the Point of Sale. From enhanced security options, to different insert configurations and specially adapted cash drawers to fit unique PoS designs, there is always a solution available to pick from to meet your requirements.

Security at the Point of Sale is becoming increasingly vital to all retailers. apg has recognised this need and developed its Self-Skimming cash drawer range which allows the secure transfer of high value notes to a security box under the counter. This patented self-skimming facility removes the visibility of high denomination notes eliminating the temptation for "cash grabs" and the need for additional note security. Also removes the need for cash lifts during the day, the solution ensures that both checkout staff and cash are protected at the PoS.

Secure Solution

The External Drop Box removes the need for a separate note safe while improving ergonomics, speeding up transactions and reducing costs for the retailer.

High Volume Note Storage

The standard or high capacity Cash Box inside the Drop Box can hold a day's takings of high value notes removing them out of view and holding them securely throughout the day.

How Does the Self-Skimming Technology Work?

Stage 1

Place the notes in the rear compartment during the end of the transaction.

Stage 2

Close the cash drawer.

Stage 3

Notes leave the drawer.

Stage 4

Notes skim into the secure Cash Box beneath the cash drawer.

(This image shows a high capacity self-locking Drop Box.)

Stage 5

Remove the Cash Box from the Drop Box to access or remove notes.

Product Features

Size	460 x 172 x 100 mm 490 x 175 x 100 mm (W x D H)	Insert	High capacity insert 8 coin with 4-6 note compartments Lockable lid or integral lid options
Colour	Standard Black Texture (others are available)	Lock	2 or 3 Option Lock High Security Lock No Lock
Media	With or without media posting	Key	A Like or Random
