

The Phoenix Cash Drawer

A Robust and Affordable Point of Sale Solution

Standard Duty Cash Drawer

Certified to two million cycles, the Phoenix is designed for fast paced retail environments that require a solution to manage high volumes of transactions at the Point-of-Sale.

Phoenix combines both affordability and security without compromising on performance. The use of steel ball bearing runners allows for smooth, consistent opening and an extended life expectancy. apg's use of a three position lock with a two bolt anchoring system gives retailers an extra level of security.

Robust, secure and an attractive price, retailers with high footfall shops will enjoy the performance of the Phoenix cash drawer.

Modern

Stylish design built with solid steel construction, giving it a innovative, clean look

Durable

Featuring a robust steel construction with steel ball bearing runners for a prolonged operational life.

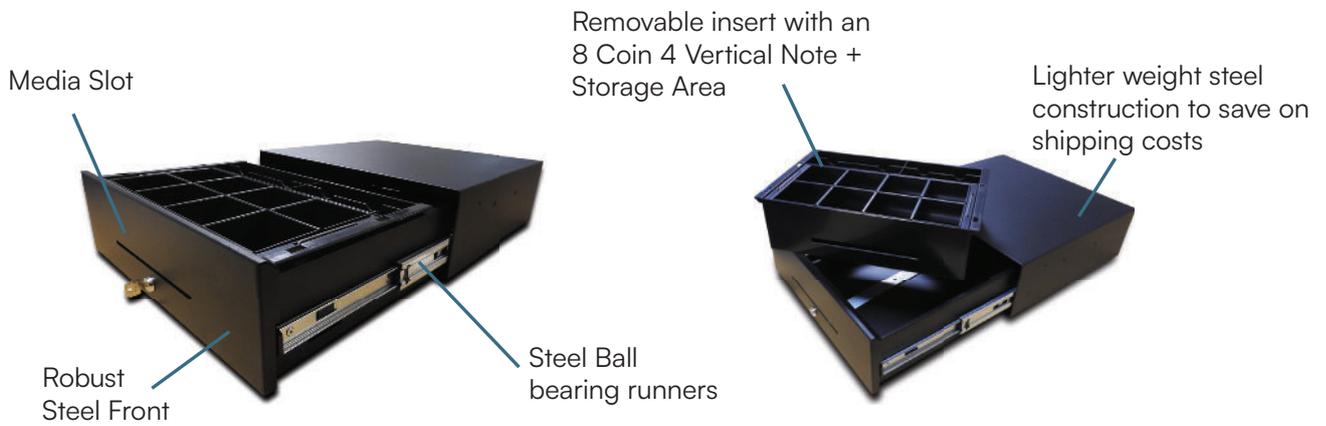

High Capacity

Save back office labor by taking advantage of the high capacity inset which reduces the need for multiple top ups during the day.

Security

Three position lock with alike or random key options for increased security. Offers the choice of two bolt down positions for increased flexibility.
