

Mobile Cart Solution

Flex Your Space

The apg® Mobile Cart is designed to adapt to your business needs. Flex, grow and move your point of sale to accommodate any seasonal, pop-up or fixed customer demand. apg's mobile cart sets up easy, is robust and is sized to handle all cash drawers and standard peripherals.

Built on heavy duty lockable casters - move and position on the fly

Intuitively designed to route and hide all your cords and cables - yet easily accessible

Heavy duty steel construction, handles the weight and takes the abuse of demanding environments

Designed to fit any sized apg cash drawer, with the top surface area to accommodate all standard peripherals

Adapt to Your Needs

apg's Mobile Cart is suited for all retail point of sale locations: large and small dealers, lawn and garden, amusement parks, stadiums, boutiques, breweries, and specialty retail. apg's Mobile Cart is designed to accommodate accessories including but not limited to, additional shelves - interior and exterior, drawers, bag racks and signage.

The base of the Mobile Cart is designed with additional structure to support any onboard power or battery option that you need based on your device requirements. Power cords and cables route seamlessly; the side panels are designed for easy removal for high levels of access. Cables remain contained and out of sight.
