

460MOD04 Flip Lid Cash Drawer

A Robust, Heavy Duty Cash Drawer

Heavy-Duty Solution

For more than 45 years, apg® has been delivering innovative retail cash drawer solutions to retailers worldwide.

The Heavy Duty Product Family's 460MOD04 Flip Lid is acclaimed as best of breed in the industry, which accepts the majority of European currencies, and is a hard wearing cash drawer that delivers a low cost of ownership with its prolonged operational life of over 4m Cycles.

The Drawer is built to withstand excessive forced entry and is the safest Flip Lid drawer apg offers. This cash drawer is ideal for supermarkets, hypermarkets, petrol forecourts and other high-transaction-volume environments.

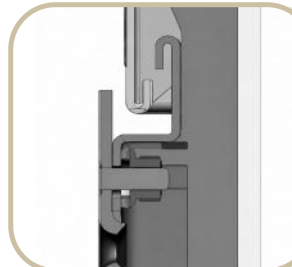

Reinforced Steel Construction

A 2 mm hardened steel plate at the front of the drawer resists attacks with screwdrivers, chisels, and other prying tools.

Interlocking Anti-Pry Design

If an attempt is made to force the lid open, the interlocking hem between the lid and drawer body engages, making unauthorized entry significantly more difficult.

High volume insert

The drawer is equipped with a high-volume insert with 8 coin and 4 note storage, weigh-able coin cups as option available.

Secure Transport

The Metal Lid or Plastic Integral Lid ensures safe transportation of the insert to the back office.

Floppy note dividers to maximize note storage

Lid Option

Plastic or Metal Insert
